PROFILE

Motivated Computer Engineering graduate with experience in Python and Java development. Skilled in software design and optimization, with strong problem-solving abilities. Proficient in Python, Java, and C, with strong English communication skills. Experienced in research and navigating information resources. Currently expanding expertise with a course in AI, Robotics, and ML. Ready to contribute effectively to software development projects.

EXPERIENCE

May 2023 - Jun 2023
Riss Technologies, Kochi
Java Intern

- Gained hands-on experience in Java development, including object-oriented programming principles and application development..
- Contributed to developing backend components for web applications, focusing on clean code and modularity.
- Collaborated with cross-functional teams to troubleshoot and optimize Java applications, ensuring smooth project execution.

May2021/Jun202
Soften Technologies, Kochi
Python Intern

- Developed foundational skills in Python programming, focusing on automation and data manipulation.
- Assisted in writing and debugging Python scripts to streamline internal processes.
- Worked alongside senior developers to enhance coding efficiency and understand best practices in Python development.

EDUCATION

2021-2024
GOVERMENT POLYTECHNIC COLLEGE KASARARAGOD

- Diploma in Computer Engineering
- Specialized in software development and computer hardware.

SKILLS

- Data labeling and Data annotation
- Core Skills: Data Structures, Algorithms, Problem Solving, Software Documentation, Code Optimization
- Coding in JAVA, PYTHON, PANDAS, MATHPLOTLIB, MYSQL, PHP, C, C++
- Oral and written communication
- Technical Writing
- Strong reading comprehension and independent judgement with limited data

LANGUAGES

- English (Fluent)
- Malayalam (Fluent)
- Hindi (Fluent)
